Skills

OS

Linux, Windows

LANGUAGES

Java, Python.

WEB DEVELOPMENT

HTML, CSS, JavaScript, Angular, Spring Boot.

DATABASES

MySQL.

OTHERS

Git, Microsoft Excel, Eclipse, VS Code.

Coursework

Data Structures

Operating Systems

Computer Networks

MySQL

Education

2019-2023

B.TECH. IN CSE

Vel Tech Rangarajan Dr.Sagunthala RD

Institute of Science and Technology

CGPA : 8.8/10

2017-2019

INTERMEDIATE

MSR Junior College,Valaparla

Percentage: 85%

2016-2017

HIGH SCHOOL

Zilla Parishad High School, Valaparla

CGPA: 9.2

Experience

APRIL-NOW **Societe Generale Global Solution Center** **Software Engineer**

- Developed a dynamic weather application that fetches real-time weather data from an external API.
- Improved application scalability and maintainability through modular design and clean code practices.
- Created RESTful services using Spring Boot to interact with the API and handle data processing.
- Implemented authentication and authorization for secure access to the application.

MARCH-JULY **Virtusa Consulting Services** **Internship**

During my internship in this Company, I had the opportunity to work on web development projects using Angular and Spring Boot. This internship provided me with hands-on experience in building modern and scalable web applications, leveraging these popular frameworks.

Certifications

2023 **Oracle Certified Associate, Java SE 8 Programmer**

As a Java Developer with an Oracle Certified Java Associate certification, I have a strong foundation in Java programming and related technologies.

2021 **Getting Started With Deep Learning by NVIDIA**

In this workshop I learned the basics of Deep Learning.

2022 **Cybersecurity Essentials, Cisco**

In this I was able to learn the principles of confidentiality, integrity, and availability as they relate to data states and cybersecurity countermeasures.

Projects

2024 **Weather Application** **Spring Boot, Angular, HTML and CSS**

Developed a full-stack weather application that provides real-time weather information for various cities using Spring Boot for the backend and Angular for the frontend. The application integrates with the OpenWeatherMap API to fetch and display current weather data.

2023 **IAS Academy Admission Portal** **Angular, Spring Boot, Mysql**

Developed a robust and scalable online portal leveraging Spring Boot and Angular frameworks to streamline the admission process for an IAS Academy.

2023 **Zomato Landing Page** **HTML, CSS, Javascript**

I have created ZOMATO landing page using basic HTML and CSS. To get more responsive page I have added the Java Script to it.
